I am so happy to have found Cleaning Diva. You can always count on them to do a great and thorough job without having to list in detail what you want them to do. They are reliable, honest, friendly and always prepared to take on those special once a year cleaning jobs like cleaning out kitchen cabinets.

As a busy working mom, I am very grateful for the impeccable housekeeping services offered by Cleaning Diva. We have been clients for more than 7 years and have no hesitation in recommending their services. I love coming home to a clean house and having the peace of mind in knowing that no harsh chemicals were used that might harm my family.

I spent over 3 years looking for someone to clean my house. I tried several cleaning services but could not find anyone who met my expectations (or with whom I felt comfortable enough to provide ongoing access to my home). A friend recommended Cleaning Diva and I have not looked back.....that was 5 years ago. Their cleaning standards are topnotch, the service is impeccable and Suzanne (the owner) has even been able to accommodate a couple of last minute requests when I had unexpected visitors arriving. I have no reservations recommending Cleaning Diva to anyone. Over the years I have referred many friends, family and coworkers.

The Cleaning Diva offers a top-drawer cleaning service! Efficient, reliable, trusted & competitively priced! They bring all of their own cleaning supplies (a money saver and convenience for the customer) and leave your home or apartment sparkling! I use their service personally and refer them to my real estate clients whenever I can!

Suzanne's friendly personality and desire to wow you is a wonderful combination. On the days that Cleaning Diva has been at my house, I would often go home before picking up my young boys just so I could appreciate the sparkliness of my home before they and all of their stuff took over. You will not be disappointed with Cleaning Diva's work!
